Art Unit: 1762

***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I.        Claims 1-11, drawn to an apparatus, classified in class 118, subclass 696.  
             + 19-28
- II.       Claim 12-18, drawn to a method, classified in class 427, subclass 421.  
             + 29-36

The inventions are distinct, each from the other because:

Inventions II and I are related as process and apparatus for its practice. The inventions are distinct if it can be shown that either: (1) the process as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the method could be practiced by hand.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Mr. DeGrizia on 12-23-02 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
